AFFORDABLE CHOICE

Duo Porcelain (Ceramic) WhiteBoards

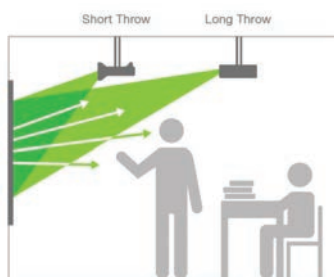

used for enhanced projection

**PREMIUM
CHOICE**

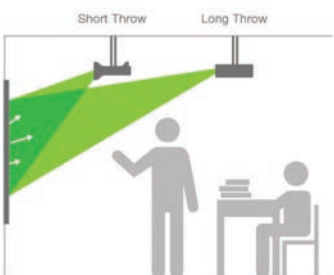

Duo Porcelain is optimized for projection, writing and erasing – It meets the growing needs of today's communicators

Standard WhiteBoard Surface

Glare & hot spot from projection or sunlight

Duo Porcelain Surface

Reduced glare & hot spot from projection or sunlight

Ideal for spaces that are exposed to excessive ambient light, *Duo Porcelain WhiteBoards* are scientifically engineered to reduce glare.

Teaching and presentation methods continually evolve. More multimedia, projection and interactive content is being incorporated into classrooms and meeting spaces worldwide.

This advancement in technology has led to 'tension' between glare reduction and dry erasability. As a result, students and co-workers are experiencing shorter attention spans, visual fatigue and reduced knowledge transfer.

Duo Porcelain addresses that problem with a surface that both enhances projection, writeability & erasability.

Features/Benefits

- **Forever Surface Guarantee**
(subject to being used for its designed purpose)
- Optimized for projection
- Reduced visual "Hot Spots"
- Clear vibrant images
